

Task 2 – Customer Retention & Churn Analysis

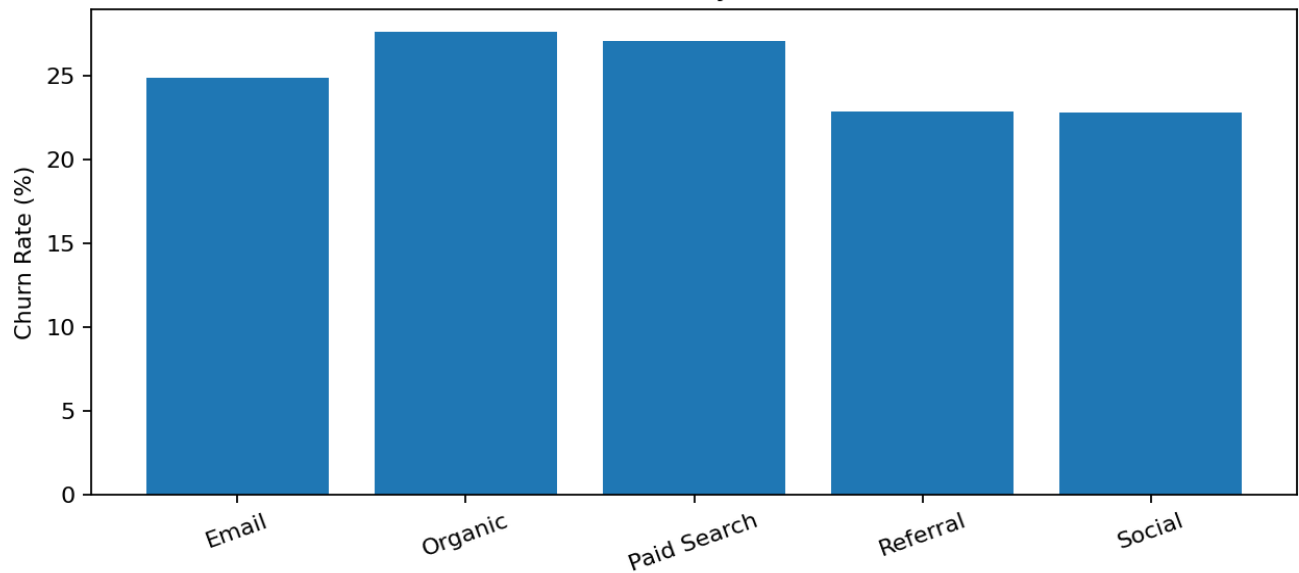

Future Interns – Data Science & Analytics Internship

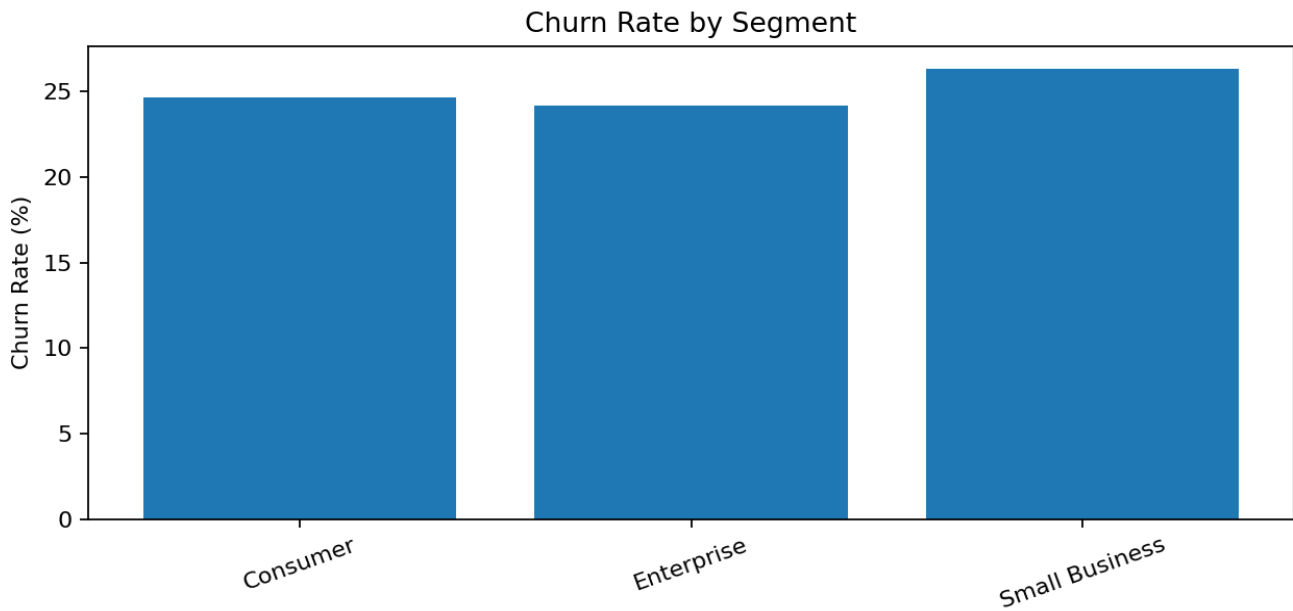

KPI	Value
Customers	3,000
Overall Churn	25.13%
Average Tenure	9.95 months

Churn Rate by Plan

Churn Rate by Channel

Key Insights

- Monthly has the highest plan churn.
- Organic has the highest channel churn.
- Cohort monitoring can reveal retention risk.

Recommendations

- Improve onboarding for high-risk plans.
- Test annual-plan incentives.
- Audit high-churn acquisition channels.
- Monitor retention cohorts.

Dataset note: simulated subscription/customer data created for portfolio demonstration.
